CONTENTS

COMMENTS

HIF, stretching to get control of VEGF
by T. D. Warner and J. A. Mitchell (see accompanying paper pp. 447–456) 393–394
Published as Immediate Publication 9 July 2003, DOI 10.1042/CS20030208

Search for non-invasive load-independent indices of left ventricular relaxation
by S. F. Nagueh (see accompanying paper pp. 499–506) 395–397
Published as Immediate Publication 9 July 2003, DOI 10.1042/CS20030214

To b’EET or not to b’EET? That is the question!
by A. Akuwalia (see accompanying paper pp. 513–518) 399–401
Published as Immediate Publication 1 August 2003, DOI 10.1042/CS20030232

PAPERS

A fat-enriched, glucose-enriched diet markedly attenuates adiponectin mRNA levels in rat epididymal adipose tissue
Published as Immediate Publication 3 June 2003, DOI 10.1042/CS20030094

Decreased HLA (human leucocyte antigen)-DR expression on peripheral blood monocytes predicts the development of organ failure in patients with acute pancreatitis
Published as Immediate Publication 2 June 2003, DOI 10.1042/CS20030058

Labour-associated changes in adrenomedullin content in human placenta and fetal membranes
by A. Al-Ghafra, N. M. Gude, S. P. Brennecke and R. G. King 419–423
Published as Immediate Publication 27 May 2003, DOI 10.1042/CS20030027

Uric acid reduces exercise-induced oxidative stress in healthy adults
Published as Immediate Publication 12 June 2003, DOI 10.1042/CS20030149

Cardiovascular and hormonal effects of subcutaneous administration of ghrelin, a novel growth hormone-releasing peptide, in healthy humans
Published as Immediate Publication 29 May 2003, DOI 10.1042/CS20030184

Increased tissue protein synthesis during spontaneous inflammatory bowel disease in HLA-B27 rats
by M. El Yousfi, D. Breuillé, I. Papet, S. Blum, M. André, L. Mosoni, P. Denis, C. Buffière and C. Obled 437–446
Published as Immediate Publication 6 June 2003, DOI 10.1042/CS20020313
Regulation of hypoxia-inducible factor-1α by cyclical mechanical stretch in rat vascular smooth muscle cells
by H. Chang, K.-G. Shyu, B.-W. Wang and P. Kuan
Published as Immediate Publication 2 June 2003, DOI 10.1042/CS20030088
447–456

Exaggerated postprandial lipaemia and lower post-heparin lipoprotein lipase activity in middle-aged men
457–466

Association between the cholesteryl ester transfer protein TaqI-detectable B polymorphism and low high-density lipoprotein cholesterol concentration in Saudis
by N. M. Al-Daghri, O. Al-Attas, A. Patel, N. D. Belyaev, W. A. Bartlett, A. F. Jones, S. Kumar and S. C. Bain
467–472

Differential expression of Flk-1 and Flt-1 in rat skeletal muscle in response to chronic ischaemia: favourable effect of muscle activity
by M. Milkiewicz, O. Hudlicka, J. Verhaeg, S. Egginton and M. D. Brown
473–482

Hypertensive response to chronic NG-nitro-L-arginine methyl ester (L-NAME) treatment is similar in immature and adult Wistar rats
by J. Zicha, O. Pecháňová, Z. Dobešová and J. Kuneš
483–489

Respiratory-related arterial pressure variability as an indicator of graded blood loss: involvement of the autonomic nervous system
491–497

Effect of preload reduction by haemodialysis on new indices of diastolic function
by R. J. Graham, J. S. Gelman, L. Donelan, P. M. Mottram and R. E. Peverill
499–506

Neither carvedilol nor bisoprolol in maximally tolerated doses has any specific advantage in lowering chronic heart failure oxidant stress: implications for β-blocker selection
507–512

Baseline blood flow and bradykinin-induced vasodilator responses in the human forearm are insensitive to the cytochrome P450 2C9 (CYP2C9) inhibitor sulphaphenazole
513–518
