CONTENTS

COMMENTS

A feeling in the waters: diagnosis of heart failure using urinary natriuretic peptides
by H. Krum and D. Liew (see accompanying paper pp. 129–133) 111–112
Published as Immediate Publication 9 October 2003, DOI 10.1042/CS20030330

Protein, programming and plumpness: is there a link?
by R. R. Huxley (see accompanying paper pp. 141–145) 113–114
Published as Immediate Publication 13 November 2003, DOI 10.1042/CS20030369

PAPERS

Coronary vasomotor response is related to the angiographic extent of coronary sclerosis in patients with stable angina pectoris
Published as Immediate Publication 4 September 2003, DOI 10.1042/CS20030215

C-reactive protein, cardiovascular risk, and renal disease in a remote Australian Aboriginal community
by S. McDonald, G. Maguire, N. Duarte, X. L. Wang and W. Hoy 121–128
Published as Immediate Publication 4 September 2003, DOI 10.1042/CS20030186

Diagnosis of heart failure using urinary natriuretic peptides
Immediate Publication 18 September 2003, DOI 10.1042/CS20030234

Vigorous response in plasma N-terminal pro-brain natriuretic peptide (NT-BNP) to acute myocardial infarction
Published as Immediate Publication 15 September 2003, DOI 10.1042/CS20030131

Early programming of weight gain in mice prevents the induction of obesity by a highly palatable diet
by S. E. Ozanne, R. Lewis, B. J. Jennings and C. N. Hales 141–145
Published as Immediate Publication 24 September 2003, DOI 10.1042/CS20030278

Haemodynamic insights into the effects of ischaemia and cycle length on tissue Doppler-derived mitral annulus diastolic velocities
Published as Immediate Publication 11 September 2003, DOI 10.1042/CS20030204
Influence of controlled breathing patterns on cerebrovascular autoregulation and cardiac baroreceptor sensitivity
by P. J. Eames, J. F. Potter and R. B. Panerai
Published as Immediate Publication 1 October 2003, DOI 10.1042/CS20030194 155–162

Influence of experimental reduction of media/lumen ratio on arterial myogenic properties of spontaneously hypertensive and Wistar-Kyoto rats
by J. M. Hughes and S. J. Bund
Published as Immediate Publication 17 September 2003, DOI 10.1042/CS20030225 163–171

Dobutamine induces ineffective work in regional ischaemic myocardium: an experimental strain rate imaging study
Published as Immediate Publication 10 September 2003, DOI 10.1042/CS20030109 173–181

Peripheral cholinergic function in humans with chronic fatigue syndrome, Gulf War syndrome and with illness following organophosphate exposure
by F. Khan, G. Kennedy, V. A. Spence, D. J. Newton and J. J. F. Belch
Published as Immediate Publication 23 September 2003, DOI 10.1042/CS20030246 183–189

Arachidonic acid, palmitic acid and glucose are important for the modulation of clonal pancreatic β-cell insulin secretion, growth and functional integrity
by G. Dixon, J. Nolan, N. H. McClenaghan, P. R. Flatt and P. Newsholme
Published as Immediate Publication 16 October 2003, DOI 10.1042/CS20030261 191–199

Effects of delayed preconditioning on myocardial regional contractility during repeated episodes of low-flow ischaemia in anaesthetized dogs: possible role of nitric oxide
by Z. Szigeti, K. Simon, J. R. Parratt and Á. Végh
Published as Immediate Publication 14 October 2003, DOI 10.1042/CS20030290 201–213

CORRESPONDENCE
Statins reduce oxidized low-density lipoprotein levels, but do not alter soluble intercellular cell-adhesion molecule-1 and vascular cell-adhesion molecule-1 levels in subjects with hypercholesterolaemia
by R. S. Rosenson, D. Wolf and C. C. Tangney
Published as Immediate Publication 11 September 2003, DOI 10.1042/CS20030291 215–217

SUPPLEMENT 50
Communications for the Autumn Meeting of the Medical Research Society on 13th November 2003 at the Science and Medicine Conference, Royal College of Physicians, London 1P–13P
