COMMENT

Can mild-to-moderate hyperhomocysteinaemia impair endothelial function in the absence of other risk factors for cardiovascular disease?
by M. L. H. Honing and C. D. A. Stehouwer (see accompanying paper pp. 353–358) 345–346
Published as Immediate Publication 4 December 2003, DOI 10.1042/CS20030391

PAPERS

Voluntary breath-holding in the morning and in the evening
by G. Bosco, A. Ionadi, P. G. Data and J. P. Mortola 347–352
Published as Immediate Publication 13 November 2003, DOI 10.1042/CS20030260

Folic acid does not improve endothelial function in healthy hyperhomocysteinaemic subjects
Published as Immediate Publication 28 November 2003, DOI 10.1042/CS20030296

Modulation of the liver export protein synthetic response to feeding by an n − 3 fatty-acid-enriched nutritional supplement is associated with anabolism in cachectic cancer patients
Published as Immediate Publication 18 November 2003, DOI 10.1042/CS20030301

Cardiac output by Modelflow® method from intra-arterial and fingertip pulse pressure profiles
Published as Immediate Publication 7 November 2003, DOI 10.1042/CS20030303

Correction of cardiac output obtained by Modelflow® from finger pulse pressure profiles with a respiratory method in humans
Published as Immediate Publication 7 November 2003, DOI 10.1042/CS20030302

Second trimester Doppler ultrasound screening of the uterine arteries differentiates between subsequent normal and poor outcomes of hypertensive pregnancy: two different pathophysiological entities?
Published as Immediate Publication 25 November 2003, DOI 10.1042/CS20030385

Plasma urocortin in human systolic heart failure
by L. L. Ng, I. W. Loke, R. J. O’Brien, I. B. Squire and J. E. Davies 383–388
Published as Immediate Publication 3 December 2003, DOI 10.1042/CS20030311
Haemodynamic effects of hyperbaric hyperoxia in healthy volunteers: an echocardiographic and Doppler study
Published as Immediate Publication 28 November 2003, DOI 10.1042/CS20030293

Overexpression of cellular FLICE-inhibitory protein (FLIP) in gastric adenocarcinoma
Published as Immediate Publication 24 November 2003, DOI 10.1042/CS20030238

Cardiac output by Portapres®
by M. S. Pitt, P. Marshall, J. P. Diesch and R. Hainsworth
Published as Immediate Publication 12 December 2003, DOI 10.1042/CS20030279

Changes in pulmonary vascular function after acute methionine loading in normal men
by C. O'Dochartaigh, H. Ong, S. Lovell, R. Donnelly, C. Hanratty, M. Riley, M. Frenneaux, I. Young and P. Nicholls
Published as Immediate Publication 6 January 2004, DOI 10.1042/CS20030383

Increased plasma non-esterified fatty acids and platelet-activating factor acetylhydrolase are associated with susceptibility to atherosclerosis in mice
by U. Singh, S. Zhong, M. Xiong, T.-b. Li, A. Sniderman and B.-B. Teng
Published as Immediate Publication 13 January 2004, DOI 10.1042/CS20030375

CORRESPONDENCE

Estimation of central aortic pressure: shedding new light or clouding the issue?
by I. B. Wilkinson and J. R. Cockcroft
Published as Immediate Publication 10 December 2003, DOI 10.1042/CS20030300

Estimation of central aortic pressure by SphygmoCor® requires accurate peripheral pressure measurement
by M. F. O’Rourke
Published as Immediate Publication 10 December 2003, DOI 10.1042/CS20030320

Estimation of central aortic pressure by SphygmoCor® requires intra-arterial peripheral pressures: authors' reply
by G. C. Cloud, C. Rajkumar, J. Kooner, J. Cooke and C. J. Bulpitt
Published as Immediate Publication 10 December 2003, DOI 10.1042/CS20030388
