CONTENTS

Vol. 45, No. 1  

Vasopressor-induced natriuresis and altered intrarenal haemodynamics in cirrhotic man. R. A. Gutman, A. W. Forrey, W. P. Fleet and R. E. Cutler  

A study of intravascular coagulation in immune complex glomerulonephritis by use of $^{131}$I-labelled fibrinogen and $^{125}$I-labelled antigen. E. N. Wardle  

Measurement of concentrations of angiotensin I in human blood by radioimmunoassay. M. A. Waite  

Studies on the blood fibrinolytic system in congestive cardiac failure. J. M. Rawles, D. Ogston and A. S. Douglas  

Impairment of phenylalanine hydroxylation in chronic renal insufficiency. G. A. Young and F. M. Parsons  

The ventilatory response to hypoxia during exercise in cyanotic congenital heart disease. M. R. H. Taylor  

SHORT COMMUNICATION  

Effect of low-density lipoprotein preparations on plasmin. Robyn J. Herbert, B. Bennett and D. Ogston  

CORRESPONDENCE SECTION  

The nature and excretion of biliary copper in man. K. O. Lewis and J. L. Gollan  

MEDICAL RESEARCH SOCIETY (Meeting on 11 May 1973)  

Demonstrations  

Communications  

Vol. 45, No. 2  

Determination of leg blood flow during exercise in man: an indicator-dilution technique based on femoral venous dye infusion. J. Wahren and L. Jorfeldt  

Factors affecting plasma clearance of $^{14}$C-cholic acid in patients with cirrhosis. M. D. Kaye, J. E. Struthers, Jr, J. S. Tidball, Elizabeth DeNiro and F. Kern, Jr

Symposium: Obesity 9P

Communications 12P

Vol. 45, No. 4 October 1973

The plasma kinin-forming system in labour. M. Malofiejew

The respiratory response to chronic metabolic alkalosis and acidosis in disease. C. Van Ypersele de Strihou and A. Frans

The bioassay of human endogenous pyrogen. E. S. Allison, W. I. Cranston, G. W. Duff, R. H. Luff and M. D. Rawlins

Free water clearance in patients with essential hypertension. E. J. Dorhout Mees and H. de Graaf

The potentiation of platelet aggregation and adhesion by heparin in vitro and in vivo. C. Thomson, C. D. Forbes and C. R. M. Prentice

Urinary excretion of water and electrolytes in normal females during the follicular and luteal phases of the menstrual cycle: the effect of posture. Owen M. Edwards and R. I. S. Bayliss

Influence of albumin on the hepatic uptake of unconjugated bilirubin. J. R. Bloomer, P. D. Berk, J. Vergalla and N. I. Berlin

Influence of albumin on the extravascular distribution of unconjugated bilirubin. J. R. Bloomer, P. D. Berk, J. Vergalla and N. I. Berlin

The effect of ethanol on the cough reflex. H. Berkowitz, J. Reichel and C. Shim

Relationship between plasma cortisol and peak expiratory flow rate in exercise-induced asthma and the effect of sodium cromoglycate. P. Jaffe, P. König, O. Ijaduola, S. Walker and S. Godfrey

Turnover of cholesteryl esters in plasma low-density and high-density lipoproteins in familial hyperbetalipoproteinaemia. N. B. Myant, S. Balasubramaniam, C. D. Moutafis, M. Mancini and Joan Slack

SHORT COMMUNICATIONS

The effects of pre-existing loads upon detection of externally applied resistances to breathing in man. D. I. McCloskey

Suppression of plasma renin by atherogenic levels of serum cholesterol in rabbits. D. J. Campbell, S. L. Skinner and A. J. Day

Vol. 45, No. 5

A specific increase in cardiovascular reactivity related to sodium retention in DOCA-salt-treated rats. G. J. Dusting, G. S. Harris and M. J. Rand

Plasma lipid and lipoprotein abnormalities in patients with malabsorption. Gilbert R. Thompson and J. Paul Miller

November 1973
Contents

The rate of sickling of cells containing sickle-cell haemoglobin. M. W. Rampling and J. A. Sirs 655

Spontaneous denaturation as a possible initial step in the breakdown of serum albumin in vivo. K. Wallevik 665

Glucose tolerance and metabolic changes in human viral hepatitis. C. O. Record, K. G. M. M. Alberti, D. H. Williamson and R. Wright 677

Generation of angiotensin II at peripheral vascular level: studies using angiotensin II antisera. J. D. Swales and H. Thurston 691

Central and peripheral mechanisms in the maintenance of experimental hypertension in the rabbit. John L. Reid, Peter J. Lewis and Colin T. Dollery 701

SHORT COMMUNICATIONS

Absorption of amino acids from an amino acid mixture simulating casein and a tryptic hydrolysate of casein in man. D. B. A. Silk, T. C. Marrs, Jill M. Addison, D. Burston, M. L. Clark and D. M. Matthews 715

CORRESPONDENCE SECTION

Vol. 45, No. 6 December 1973

Renal handling of calcium, magnesium, inorganic phosphate and hydrogen ions during prolonged exposure to elevated carbon dioxide concentrations. S. P. Gray, J. E. W. Morris and C. J. Brooks 751

Decreased ouabain-sensitive adenosine triphosphatase activity in the erythrocyte membrane of patients with chronic renal disease. C. H. Cole 775

The effect of ethinyloestradiol on calcium and phosphorus metabolism of post-menopausal women with primary hyperparathyroidism. J. C. Gallagher and R. Wilkinson 785
Contents

The hydrolysis of glycine oligopeptides by guinea-pig intestinal mucosa and by isolated brush borders. T. J. Peters 803
The mechanism of the entry of dye into neutrophils in the Nitroblue Tetrazolium (NBT) test. A. W. Segal and A. J. Levi 817
The effect of protein loads on plasma amino acid levels. T. Palmer, Mary A. Rossiter, B. Levin and V. G. Oberholzer 827
The effects of therapeutic decrease in packed cell volume on the responses to exercise of patients with polycythaemia secondary to lung disease. B. D. W. Harrison, Jane Davis, R. G. Madgwick and Marion Evans 833
Intestinal absorption of dipeptides containing glycine, phenylalanine, proline, β-alanine or histidine in the rat. D. J. Boullin, R. F. Crampton, Christine E. Heading and D. Pelling 849

Short Communication

Maximum bicarbonate response to intravenous infusion of ‘GIH’ secretin in man. L. V. Gutierrez and J. H. Baron 859

Correspondence Section

Measurements of the metabolic component of the acid–base status in acute clinical situations. C. T. Kappagoda, R. J. Linden, H. M. Snow, J. B. Stoker, D. G. Lewis and J. C. Stoddart 863
Body potassium and fat-free mass. F. P. Muldowney, K. Boddy, Priscilla C. King, J. Womersley and J. V. G. A. Durnin 865

Supplement No. 1 August 1973

Proceedings of the Second Meeting of the International Society of Hypertension, Milan, 20–23 September 1972

The First Volhard Lecture: Franz Volhard, 1872–1972. Sir George Pickering 1s
Studies on hypertension in spontaneously hypertensive rats. Kozo Okamoto, Yukio Yamori, Shoichiro Nosaka, Akira Ooshima and Fumitada Hazama 11s
Blood pressure and ageing; results of a 15–17 year follow-up study in South Wales. W. E. Miall and Susan Chinn 23s
Longitudinal change in blood pressure in individuals, families and social groups. Benjamin C. Johnson, Thomas M. Karunas and Frederick H. Epstein 35s
Early consequences of screening for hypertension in a community. Ronald J. Prineas, W. B. Stephens and R. R. H. Lovell 47s
Genetic ecology of hypertension. Ricardo Cruz-Coke, Hugo Donoso and Radek Barrera 55s
The organization of a multi-centre randomized control therapeutic trial for mild to moderate hypertension. W. S. Peart 67s
European working party on high blood pressure in elderly (EWPHE): organization of a double-blind multicentre trial on antihypertensive therapy in elderly patients.
A. AMERY and A. DE SCHAEPDRUIVER 71s
A new look at the treatment of severe hypertension. PRISCILLA KINCAID-SMITH, P. FANG and M. C. LAVER 75s
Results of medical versus surgical treatment of renovascular hypertension. W. S. PEART 89s
Results of surgical treatment in comparison with medical treatment of renovascular hypertension. K. OWEN 95s
Effect of high-salt, high-carbohydrate, low-protein diet on hypertension in the rat. HIDEO UEDA 99s
An epidemiological study of hypertension. TAKESHI KIMURA 103s
Long-term study of relationships between blood pressure, age and body weight in steelmill workers. M. ULYCH, J. TAUBER and A. P. SHAPIRO 107s
Electrolytes, environment and blood pressure. H. G. LANGFORD and ROBERT L. WATSON 111s
Importance of central catecholaminergic neurones in the development and maintenance of renal hypertension. P. J. LEWIS, J. L. REID, J. P. CHALMERS and C. T. DOLLLERY 115s
Reversibility of baroreceptor adaptation in chronic hypertension. HELIO CESAR SALGADO and EDUARDO MOACYR KRIEGER 123s
Sympathetic activity in peripheral nerves of normo- and hypertensive subjects. B. G. WALLIN, W. DELIUS and K.-E. HAGBARTH 127s
Cardiovascular responses to acute mental ‘stress’ in spontaneously hypertensive rats. B. FOLKOW, MARGARETA HALLBÄCK and LILIAN WEISS 131s
The hypertensive role of the kidney in spontaneously hypertensive rats. G. BIANCHI, U. FOX, G. F. DI FRANCESCO, U. BARDI and MARIA RADICE 135s
The thymus of spontaneously hypertensive rats: light- and electron-microscopic studies. J. M. ROJO-ORTEGA, E. YEGHIAYAN and J. GENEST 141s
Systemic haemodynamics in mild arterial hypertension before and after physical training. R. SANNERSTEDT, H. WASIR, R. HENNING and L. WERKÖ 145s
Importance of the adrenergic nervous system in the support of cardiac function in patients with primary arterial hypertension. M. GUZZI, A. POLESE, C. FIORENTINI and F. MAGRINI 151s
Haemodynamic and blood volume studies in long-term haemodialysis patients, and in patients with successfully transplanted kidneys. J. TUCKMAN, J.-L. BENNINGER and F. REUBI 155s
Treatment of hypertension with large doses of the β-adrenergic blocking drug oxyprenolol, alone, and in combination with the vasodilatator dihydralazine. J. TUCKMAN, F. MESSERLI and J. HODLER 159s
Hypotensive effect of oxyprenolol in mild hypertension: a co-operative controlled study. G. MUIESAN, M. MOTOLESE and A. COLOMBI 163s
The effect of practolol (‘Eraldin’) in the long-term treatment of severe and moderate hypertension. R. M. FULTON, E. HILDA FULTON and K. G. GREEN 167s
Clinical and pharmacokinetic studies of minoxidil, a new antihypertensive agent. CHARLES A. CHIDSEY 171s
Contents

The effect of oral diazoxide on hypertension and sodium excretion in chronic renal failure. H. THURSTON, J. E. F. POHL and J. D. SWALES

Blood pressure over-shoot due to acute clonidine (Catapres) withdrawal: studies on arterial and urinary catecholamines and suggestions for management of the crisis. LENNART HANSSON and STEPHEN N. HUNYOR

The natural history of hypertension with moderate impairment of renal function. G. E. BAUER and T. J. HUMPHERY

The value of portably recorded blood pressures in the initiation of treatment of moderate hypertension. MAURICE SOKOLOW, DOROTHIE PERLOFF and RONALD COWAN

Haemodynamic changes in long-term therapy of essential hypertension: a comparative study of diuretics, α-methyldopa and clonidine. P. LUND-JOHANSEN (Errata, p. xviii)

Complications in treated arterial hypertension. H. STORM-MATHISEN, H. LÖKEN and U. RIAN

Antihypertensive effect of spironolactone in essential, renal and mineralocorticoid hypertension. F. MANtero, D. ARMANINI and S. URBANI

The clearance of endogenous renin in the anhepatic anephric dog. R. FAGARD, E. EYSKENS, H. DELOOZ, E. FOSSION and A. AMERY

Metabolism of renin activity in three canine models: isolated liver, acute hepatic necrosis and chronic toxic hepatitis. CAMERON G. STRONG, HUGO R. TAPIA and JAMES C. HUNT

Metabolic clearance rate of angiotensin II in arterial hypertension. A. COLI and L. DONATO

Synthesis of renin inhibitors. K. POUlsen, J. A. BURTON and E. HABER

Renin release and renal vasomotor changes during stimulation of the brain stem in the cat. D. RICHARDSON, A. STELLA, G. LEONETTI, A. BARTORELLI and A. ZANCHETTI

Effects of angiotensin II on adenylylclase activity, phosphodiesterase activity and on the level of cyclic AMP in rat uterus. G. ANGÈLES D’AUrique and P. MEYER

The vicious circle in acute malignant hypertension of rats. G. DAUDA, J. MÖHRING, K. G. HOFBAUER, E. HOMSY, ULRIKE MIKSCHE, H. ORTH and F. GROSS

Angiotensin–salt hypertension. E. ERIC MUIRHEAD, BYRON E. LEACH and FRANK B ARMSTRONG

A new urinary assay for separate normetanephrine and metanephrine with application for the diagnosis of phaeochromocytoma. ROBERT L. WOLF, CORNELIA E. GHERMAN, JOHN D. LAUER, HAROLD L. FISH and BURT R. LEVEY

Contents

Age-dependent changes of plasma renin concentration in humans. K. HAYDUK, D. K. KRAUSE, W. KAUFMANN, R. HUENGES, U. SCHILLMÖLLER and V. UNBEHAUN

Plasma renin and angiotensin levels in human hypertension following treatment. C. I. JOHNSTON, N. ANAVEKAR, K. G. CHUA and W. J. LOUIS

Increased plasma renin substrate concentrations in human malignant hypertension. E. ROSSET, J. R. SHERRER and R. VEYRAT

Plasma renin activity and plasma renin substrate in hypertension associated with steroid excess. L. R. CRACKOFF and M. MENDLOWITZ

On the pathogenesis of the secondary hyperaldosteronism of the Bartter syndrome. I. NIELSEN, J. G. JACOBSEN and K. H. OLESEN

Ionic composition of arterial wall in experimental hypertension. G. L. F. J. RORIVE and H. VAN CAUWENBERGE

Prognosis in arteriosclerotic renovascular hypertension. M. H. PINEDO, J. DE GRAEFF and A. STRUYVENBERG

Divided renal and peripheral venous renin as a means of predicting operative curability of renal hypertension. KIKUO ARAKAWA, ZENZIRO MASAKI, YUKIO OSADA, JUNKO YAMADA and SHUNRO MOMOSE

Improved technique for aorto-renal reconstruction: a haemodynamic approach. U. RUBERTI, A. VEGETO and E. MALAN

Oral contraceptives and hypertension. J. 0. LUND

Renal prostaglandins: determinants of intrarenal distribution of blood flow in the dog. H. D. ITSKOVITZ, J. STEMPER, D. PACHOLCZYK and J. C. McGIFF
