CONTENTS

VOL. 50, No. 1

The fate of circulating lactate dehydrogenase-5 in the rabbit. A. R. QURESHI and J. H. WILKINSON 1–14
Effect of liver failure on the cerebral circulatory and metabolic responses to hypoxia in the goat. N. N. STANLEY and N. S. CHERNIACK 15–23
Effect of liver failure on the ventilatory response to hypoxia in man and the goat. N. N. STANLEY, S. G. KELSEN and N. S. CHERNIACK 25–35
The pattern of venous drainage of surgically created side-to-side arteriovenous fistulae in the human forearm. J. P. JAMISON and W. F. M. WALLACE 37–41
Measurement by venous occlusion plethysmography of blood flow through surgically created arteriovenous fistulae in the human forearm. W. F. M. WALLACE and J. P. JAMISON 43–49

SHORT COMMUNICATIONS

Acid hydrolase activities and lysosomal integrity in liver biopsies from patients with iron overload. T. J. PETERS and CAROL A. SEYMOUR 75–78
Absence of an acute effect of calcium or parathyroid hormone administration on plasma renin activity in man. S. EPSTEIN, J. SAGEL, H. BRODOVSKY, S. TUFF and L. EALES 79–81
Ventilatory response to carbon dioxide in tetanus. O. O. ELEGBELEYE and D. FEMI-PARSEE 83–86
Effects of halothane on pulmonary inactivation of noradrenaline and prostaglandin E2 in anaesthetized dogs. Y. S. BAKHLE and A. J. BLOCK 87–90

VOL. 50, No. 2

Multiple changes in distal stop-flow electrolyte patterns and reduction of acid excretion induced in rabbits by angiotensin. J. K. HEALY and A. J. ELLIOTT 91–102
Plasma renin activity as a function of age in two new strains of spontaneously hypertensive and normotensive rats. MADELEINE VINCENT, JEANNE DUPONT and J. SASSARD 103–107
Estimation of the resting reflex hypoxic drive to respiration in patients with diffuse pulmonary infiltration. R. A. STOCKLEY and K. D. LEE 109–114
The functional response of the dog ileum to one hour’s ischaemia. J. W. L. ROBINSON, H. MENGE, F. V. SEPÚLVEDA, F. COBO and V. MIRKOVITCH 115–122
Morphology and function of the dog ileum after mechanical occlusion. V. MIRKOVITCH, F. COBO, J. W. L. ROBINSON, H. MENGE and SZ. GOMBA 123–130
Evidence for both luminal and systemic factors in the control of rat intestinal epithelial replacement. R. M. CLARKE 139–144

MEDICAL RESEARCH SOCIETY (Annual General Meeting on 12 December 1975)

Symposium: Gut Hormones 1p
Communications 1p–33p
The effect of chelating agents on cellular iron metabolism. G. P. White, R. Bailey-Wood and A. Jacobs

Glucose tolerance and insulin release in malnourished rats. C. Weinkove, E. A. Weinkove and B. L. Pimstone

The acute effects of respiratory and metabolic acidosis on renal function in the dog. M. O. Farber, J. J. Szwed, A. R. Dowell and R. A. Strawbridge

Cell size and glucose oxidation rate in adipose tissue from non-diabetic and diabetic obese human subjects. L. C. Harrison and A. P. King-Roach

The haemodynamic effects of metabolic acidosis in the rat. J. Yudkin, R. D. Cohen and Barbara Slack

The effect of acidosis on lactate removal by the perfused rat kidney. J. Yudkin and R. D. Cohen

Urinary excretion of hydroxylysyl glycosides during acute inflammation in the rat. R. Askenasi, M. Le Louis, S. Bazin and V. H. Rao

Assessment of responsiveness to carbon dioxide in patients with chronic airways obstruction by rate of isometric inspiratory pressure development. A. W. Matthews and J. B. L. Howell

Effect of nutritional status on rat adipose tissue, muscle and post-heparin plasma clearing factor lipase activities: their relationship to triglyceride fatty acid uptake by fat-cells and to plasma insulin concentrations. A. Cryer, Susan E. Riley, E. R. Williams and D. S. Robinson

The relation between the excretion of sodium and water and the perfusion pressure in the isolated, blood-perfused, rabbit kidney, with special reference to changes occurring in clip-hypertension. J. M. A. Thompson and C. J. Dickinson

Short Communication

Growth hormone secretion in acid–base alterations at rest and during exercise. J. R. Sutton, N. L. Jones and C. J. Toews

Post-heparin plasma lipoprotein lipase and hepatic lipase in normal subjects and in patients with hypertriglyceridaemia: correlations to sex, age and various parameters of triglyceride metabolism. J. K. Huttunen, C. Enholm, M. Keikki and E. A. Nikkilä

The clinical measurement of skeletal blood flow. R. Wootton, J. Reeve and N. Veall

Suppression of the renin–aldosterone system in mild essential hypertension. A. M. Khokhar, J. D. H. Slater, T. P. Jowett and N. N. Payne

Polyuria associated with an antibody to vasopressin. G. W. Bisset, Angela Black, P. J. Hilton, N. F. Jones and Margaret Montgomery

The influence of sodium intake on the pressor response to angiotensin II in the unanaesthetized rat. Barbara L. Slack and J. M. Ledingham

The intracellular pH of human leucocytes in response to acid–base changes in vitro. G. E. Levin, P. Collinson and D. N. Baron

Arterial oxygenation and carbon dioxide tensions in the production of hypoxic electroencephalographic changes in man. A. S. Rebuck, C. Davis, D. Longmire, A. R. M. Upton and A. C. P. Powles
The distribution of $[^{14}\text{C}]$cholesterol in muscle and skin of Rhesus monkeys after intravenous injection. C. D. MOUTAFIS and N. B. MYANT 307–310

**SHORT COMMUNICATIONS**

Changes in the carotid body and the ventilatory response to hypoxia in chronically hypoxic rats. GWENDA R. BARER, C. W. EDWARDS and ANGELA I. JOLLY 311–313

Lipoprotein lipase and hormone-sensitive lipase activities in human subcutaneous lipomas: comparison with normal subcutaneous adipose tissue. Y. GIUDICELLI, R. PECQUERY, B. AGILI, C. JAMIN and J. QUEVAUVILLIERS 315–318

**CORRESPONDENCE SECTION**

Regression lines and correlations. J. P. NICHOLSON, CAROL M. TAYLOR and M. L. LEVIN 319–320

**VOL. 50, No. 5**      MAY 1976

The spectrophotometric determination of human serum carboxypolypeptidase with angiotensin converting enzyme-like activity. J. J. SUMMARY 321–327

Rat hepatic sodium plus potassium ion-dependent adenosine triphosphatase after treatment with digoxin and thyroxine. R. LINDSAY and J. L. W. PARKER 329–332

Analytical subcellular fractionation studies on rat liver and on isolated jejunal enterocytes with special reference to the separation of lysosomes, peroxisomes and mitochondria. T. J. PETERS and H. SHIO 355–366

The ventilatory response in severe metabolic acidosis. M. FULOP 367–373

The relation between functioning parietal cell and gastrin cell masses in two groups of duodenal ulcer patients. D. J. BYRNES, SHIU KUM LAM and W. SIRCUS 375–383

Disappearance of $^{131}$I-labelled and unlabelled insulins from blood in normal and injured rats. K. N. FRAYN 385–392

Turnover of plasma glucose and free fatty acids in patients on the first day after myocardial infarction. I. A. NIMMO, R. H. SMITH, M. A. DOLDER and M. F. OLIVER 401–407

Biochemical and morphological studies on human jejunal mucosa maintained in culture. C. L'HIRONDEL, W. F. DOE and T. J. PETERS 425–429

**SHORT COMMUNICATION**

Contents

Vol. 50, No. 6 JUNE 1976

The relation between potassium in body fluids and total body potassium in healthy and diabetic subjects. K. Boddy, R. Hume, C. White, A. Pack, P. C. King, E. Weyers, T. Rowan and E. Mills 455–461

The effect of insulin on adenosine 3′:5′-monophosphate and guanosine 3′:5′-monophosphate concentrations in human plasma. K. Siddle, C. J. Davies, K. J. Shetty and R. S. Elkeles 487–491

Effect of inhibition of gluconeogenesis on ammonia production in the perfused rat kidney. B. D. Ross 493–498

Absorption of galactose by the rat small intestine in vivo: proximal–distal kinetic gradients and a new method to express absorption per enterocyte. R. M. Batt and T. J. Peters 499–509

Effects of prednisolone on the small intestinal mucosa of the rat. R. M. Batt and T. J. Peters 511–523

Haemodynamic studies in dogs with chronic bile-duct ligation. S. M. Shasha, O. S. Better, C. Chaimovitz, J. Domam and Y. Kishon 533–537

Release of colony-stimulating activity from the isolated perfused rat liver. A. Howell, W. G. E. Cooksley and C. J. Danpure 539–544

The effect of active immunization against aldosterone on the colonic potential response and sodium excretion in rabbits. R. J. Lennane, J. Stockigt and W. S. Peart 545–549

Short Communication

Plasma growth hormone concentrations in Huntington’s chorea. O. T. Phillipson and E. D. Bird 551–554
