## CONTENTS

### COMMENTS

**Molecular genetics of coronary artery disease: measuring the phenotype**  
by N. J. Samani  
(see accompanying paper pp. 659–667 and Correspondence pp. 745–746)

**Aldosterone: a hormone with adverse autonomic effects?**  
by G. Grassi  
(see accompanying paper pp. 687–692)

### REVIEW

**Erythrocyte Na⁺/Li⁺ countertransport and Na⁺/K⁺–2Cl⁻ co-transport measurement in essential hypertension: useful diagnostic tools or failure? A meta-analysis of 17 years of literature**  
by T. Tepper, W. J. Sluiter, R. M. Huisman and D. de Zeeuw

### PAPERS

**Transforming growth factor-β1 gene polymorphisms and coronary artery disease**  
by P. Syrris, N. D. Carter, J. C. Metcalfe, P. R. Kemp, D. J. Grainger, J. C. Kaski, D. C. Crossman, S. E. Francis, J. Gunn, S. Jeffery and K. Heathcote

**Non-invasive measurements of arterial structure and function: repeatability, interrelationships and trial sample size**  
by Y.-L. Liang, H. Teede, D. Kotsopoulos, L. Shiel, J. D. Cameron, A. M. Dart and B. P. McGrath

**Increased myogenic tone precedes structural changes in mild experimental uraemia in the absence of hypertension in rats**  
by T. Savage, A. C. McMahon, A. M. Mullen, C. A. Nott, S. M. Dodd, R. M. Tribe and M. M. Yaqoob

**Aldosterone blunts the baroreflex response in man**  
by K. M. Yee and A. D. Struthers

**Relationship between arterial baroreflex cardiopulmonary vagal reflex and renal natriuretic response to saline in conscious rabbits**  
by N. Maybaum, E. Gorodetsky and M. Weinstock

**Chronic infusions of brain natriuretic peptide in conscious sheep: bioactivity at low physiological levels**  
by C. J. Charles, E. A. Espiner, M. G. Nicholls, M. T. Rademaker and A. M. Richards
Effects of nisoldipine and lisinopril on microvascular dysfunction in hypertensive Type I diabetes patients with nephropathy

Subcutaneous glucagon-like peptide-1 (7-36) amide is insulinotropic and can cause hypoglycaemia in fasted healthy subjects
by C. M. B. Edwards, J. F. Todd, M. A. Ghaltei and S. R. Bloom 719–724

Variation in the apparent sensitivity of the insulin-mediated inhibition of proteolysis to amino acid supply determines the efficiency of protein utilization
by A. Fereday, N. R. Gibson, M. Cox, P. J. Pacy and D. J. Millward 725–733

Gastrectomy osteopenia in the rat: the role of vitamin B₁₂ deficiency and the type of reconstruction of the digestive tract

A common polymorphism of the transforming growth factor-β1 gene and coronary artery disease
by X. L. Wang, A. S. Sim and D. E. L. Wilcken 745–746

# CONTENTS

**VOLUME 95, NUMBER 1, JULY 1998**

## EDITORIAL
by M. J. Jackson

1

## REVIEWS

**Clinical and therapeutic significance of the Na\(^+\),K\(^+\) pump**
by T. Clausen

3–17

**Role of T-cells in the development of arthritis**
by J. S. H. Gaston

19–31

## PAPERS

**Heart rate control of blood pressure variability in children: a study in subjects with fixed ventricular pacemaker rhythm**
by I. Constant, E. Villain, D. Laude, A. Girard, I. Murat and J.-L. Elghozi

33–42

**Autonomic modulation of heart rate and blood pressure in hypertensive subjects with symptoms of anxiety**
by G. Piccirillo, S. Elvira, E. Viola, C. Bucca, M. Durante, P. Raganato and V. Marigliano

43–52

**Serum total sialic acid, a reputed cardiovascular risk factor, and its relationship to lipids, plasma fasting insulin, blood pressure and body mass index in normal individuals**
by M. Crook, P. Lumb, V. Andrews and R. Swaminathan

53–57

**Gender differences in fat oxidation and sympathetic nervous system activity at rest and during submaximal exercise in older individuals**
by M. J. Toth, A. W. Gardner, P. J. Arciero, J. Calles-Escandon and E. T. Poehlman

59–66

**Alterations in renal degradation of albumin in early experimental diabetes in the rat: a new factor in the mechanism of albuminuria**
by M. J. Burne, S. Panagiotopoulos, G. Jerums and W. D. Comper

67–72

**Renal haemodynamics, sodium and water reabsorption during continuous intravenous infusion of recombinant interleukin-2**

73–81

**Effect of propylthiouracil-induced hypothyroidism on the onset of skeletal muscle necrosis in dystrophin-deficient mdx mice**
by A. McArdle, T. R. Helliwell, G. J. Beckett, M. Catapano, A. Davis and M. J. Jackson

83–89

**Effects of morphine administration on the fetal production of oxytocin in labour**
by S. W. Lindow, M. S. Hendricks, J. W. Thompson and Z. M. van der Spuy

91–95

**A novel method for the visualization of the in situ mucus layer in rat and man**
by N. Jordan, J. Newton, J. Pearson and A. Allen

97–106

**Intestinal permeability to polyethyleneglycol and sugars: a re-evaluation**
by J. B. Lloyd

107–110
VOLUME 95, NUMBER 2, AUGUST 1998

COMMENTS

Magnesium and airway reactivity
by J. Hill
(see accompanying paper pp. 137–142)
111–112

Time for a lower blood lead action level for children?
by M. White
(see accompanying paper pp. 219–223)
113

REVIEWS

In utero programming of chronic disease
by D. J. P. Barker
115–128

Usefulness of markers of cell proliferation in the management of pituitary adenomas
129–135

PAPERS

Bronchial reactivity and intracellular magnesium: a possible mechanism for the
bronchodilating effects of magnesium in asthma
by L. J. Dominguez, M. Barbagallo, G. Di Lorenzo, A. Drago, S. Scola, G. Morici and C. Caruso
137–142

Possible interaction between exposure to environmental tobacco smoke and therapy
in children with asthma
by J.-C. Dubus, C. Oddoze, M. Badier, C. Guillot and B. Bruguerolle
143–149

Effect of endothelin-1 on endothelium-derived vascular responsiveness in man
by H. Krum, N. Cranswick and A.-M. Pellizzer
151–155

Effect of salt-loading on blood pressure, insulin sensitivity and limb blood flow in
normal subjects
by M. Foo, A. E. Denver, S. W. Coppack and J. S. Yudkin
157–164

Characteristics of small bowel motility in patients with irritable bowel syndrome
and normal humans: an Oriental study
by C.-L. Lu, C.-Y. Chen, F.-Y. Chang and S.-D. Lee
165–169

A method for examining differential mRNA expression along the crypt–villus axis of
the human small intestine
by E. Chua, Q. Wang, P. O’Toole and M. Lombard
171–177

Rat hepatic stellate cell expression of α2-macroglobulin is a feature of cellular
activation: implications for matrix remodelling in hepatic fibrosis
by C. A. Kawser, J. P. Iredale, P. J. Winwood and M. J. P. Arthur
179–186

Inter-α-inhibitor in calcium stones
187–193

Activation of myocardial and renal natriuretic peptides during acute intravascular
volume overload in dogs: functional cardiorenal responses to receptor antagonism
by D. D. Borgeson, T. L. Stevens, D. M. Heublein, Y. Matsuda and J. C. Burnett
195–202
Control of the forearm microcirculation: interactions with measures of obesity and noradrenaline kinetics

Central cooling effects in patients with hypercholesterolaemia
by F. De Lorenzo, M. Mukherjee, Z. Kadziola, R. Sherwood and V. V. Kakkar 213–217

Blood lead in U.K. children – time for a lower action level?
by J. O’Donohoe, S. Chalkley, J. Richmond and D. Barltrop 219–223

Proteasome blockers inhibit protein breakdown in skeletal muscle after burn injury in rats

SUPPLEMENT 39
Communications for the Spring Meeting of the Medical Research Society on 20 May 1998 at the Royal College of Physicians, London 1P–22P

VOLUME 95, NUMBER 3, SEPTEMBER 1998

PAPERS

Prolonged stability of brain natriuretic peptide: importance for non-invasive assessment of cardiac function in clinical practice
by M. G. Buckley, N. J. Marcus, M. H. Yacoub and D. R. J. Singer 235–239

A central γ-aminobutyric acid mechanism in cardiac vagal control in man revealed by studies with intravenous midazolam

Lack of habituation of the pattern of cardiovascular response evoked by sound in subjects with primary Raynaud’s disease
by C. M. Edwards, J. M. Marshall and M. Pugh 249–260

Factors determining cardiac hypertrophy in hypertensive patients with or without peripheral vascular disease
by M. Brahimi, B. I. Levy, M. E. Safar and H. Dabiré 261–267

Human cardiovascular variability, baroreflex and hormonal adaptations to a blood donation

Respiratory correlates of muscle sympathetic nerve activity in heart failure

Subjects with obstructive pulmonary disease tend to be chronically vasodilated

Fractal dimension and approximate entropy of heart period and heart rate: awake versus sleep differences and methodological issues
by V. K. Yeragani, E. Sobolewski, V. C. Jampala, J. Kay, S. Yeragani and G. Igel 295–301

Influences of carvedilol treatment on the effects of acetylcholine on regional haemodynamics in the spontaneously hypertensive rat
Methylenetetrahydrofolate reductase polymorphism (C-677T) and coronary artery disease

Diminished insulin clearance during late pregnancy in patients with Type I diabetes mellitus

Subcutaneous glucagon-like peptide-I improves postprandial glycaemic control over a 3-week period in patients with early Type 2 diabetes

Glycoxidation, and protein and DNA oxidation in patients with diabetes mellitus
by K. Krapfenbauer, R. Birnbacher, H. Vierhapper, K. Herkner, D. Kampel and G. Lubec 331–337

Absence of glutamine isotopic steady state: implications for the assessment of whole-body glutamine production rate

Effect of interleukin-4 on pro-inflammatory cytokine production and the acute phase response in healthy individuals and in patients with cancer or multiple organ failure

Nitric oxide synthase activity is increased in relation to the severity of liver dysfunction
by H. F. Galley, D. Coomansingh, N. R. Webster and P. W. Brunt 355–359

Beneficial effect of vitamin E administration on nitric oxide function in subjects with hypercholesterolaemia

Protective agents used as additives in University of Wisconsin solution to promote protection against ischaemia–reperfusion injury in rat lung

Regulation of cAMP in a lymphocyte preparation isolated from peripheral venous blood in human subjects: the significance of residual thrombocytes, noradrenaline and prostaglandins
by S. B. Søndergaard, J. H. Knudsen and N. J. Christensen 377–383

HYPOTHESIS

Stimulation of apoptosis by sulindac and piroxicam
by W. R. Waddell 385–388

CORRESPONDENCE

Humoral-mediated recognition of 'phagocyte-resistant' beads by lymph node macrophages of poloxamine-treated rats
by S. M. Moghimi 389–391
Does oxidized low-density lipoprotein occur in vivo?
by M. J. Jackson (see accompanying paper pp. 489–495) 393

Cerebrovascular reactivity measurement using near-infrared spectroscopy
by D. Grosset (see accompanying paper pp. 497–504) 395

Importance of glutamine metabolism in murine macrophages and human monocytes
to L-arginine biosynthesis and rates of nitrite or urea production
by C. Murphy and P. Newsholme 397–407

Renal arginine metabolism in fasted rats with subacute short bowel syndrome
by C. H. C. Welters, N. E. P. Deutz, E. Heineman and P. B. Soeters 409–418

Studies in vivo of \( \omega \)-gliadins in gluten sensitivity (coeliac sprue disease)
by A. Ensari, M. N. Marsh, K. J. Moriarty, C. M. Moore, R. J. Fido and A. S. Tatham 419–424

Isolation and characterization of the viscous, high-molecular-mass microbial
carbohydrate fraction from faeces of healthy subjects and patients with Crohn’s
disease and the consequences for a therapeutic approach
by J. G. H. Ruseler-van Embden, L. M. C. van Lieshout, D. J. Binnema and M. P. Hazenberg 425–433

Inhibition of renal \( 11 \beta \)-hydroxysteroid dehydrogenase in vivo by carbenoxolone in the
rat and its relationship to sodium excretion

A comparison of the development of renal hypertension in male and female rats

Arrhythmogenic effect of ventriculography in patients with left ventricular dilation
and/or hypertrophy
by A. S. Serafi, S. J. Evans and J. V. Jones 453–458

Administration of albumin to patients with sepsis syndrome: a possible beneficial
role in plasma thiol repletion

Porcine hepatic response to sepsis and its amplification by an adrenergic receptor \( \alpha_1 \)
an agonist and a \( \beta_2 \) antagonist
by D. Tighe, R. Moss and D. Bennett 467–478

Randomized clinical trial comparing the effectiveness of two dietary interventions
for patients with hyperlipidaemia
by C. Ni Mhurchú, B. M. Margetts and V. Speller 479–487

Identification of oxidized low-density lipoprotein in human serum by NMR
spectroscopy

Evaluation of potential factors affecting the measurement of cerebrovascular
reactivity by near-infrared spectroscopy
by R. Totaro, G. Barattelli, V. Quaresima, A. Carolei and M. Ferrari 497–504
