

Clinical SCIENCE

C O N T E N T S

COMMENTS

- Insulin resistance and hypertension: is impaired arterial baroreceptor sensitivity the missing link?**
 by P. J. Weston (see accompanying paper pp. 129–136) 125–126
First published on the Internet 4 January 2000
- Antenatal glucocorticoid therapy: a caveat to the applause**
 by J. R. Seckl (see accompanying paper pp. 137–142) 127–128
First published on the Internet 4 January 2000
- Oxygenation of the brain at altitude**
 by J. S. Milledge (see accompanying paper pp. 159–164) 165–166
First published on the Internet 11 January 2000

REVIEW

- Steroid hormone receptor expression and action in bone**
 by R. Bland 217–240
First published on the Internet 31 January 2000

RAPID COMMUNICATION

- Age-related changes in microvascular permeability: a significant factor in the susceptibility of children to shock?**
 by J. Gamble, D. Bethell, N. P. J. Day, P. P. Loc, N. H. Phu, I. B. Gartside, J. F. Farrar and N. J. White 211–216
First published on the Internet 31 January 2000

PAPERS

- Effects of insulin on the cardiac autonomic nervous system in insulin-resistant states**
 by G. Paolisso, D. Manzella, M. R. Rizzo, M. Barbieri, G. Varricchio, A. Gambardella and M. Varricchio 129–136
First published on the Internet 4 January 2000
- Antenatal corticosteroid therapy and blood pressure at 14 years of age in preterm children**
 by L. W. Doyle, G. W. Ford, N. M. Davis and C. Callanan 137–142
First published on the Internet 4 January 2000
- Enzyme load in pancreatic acinar cells is increased in the early stages of acute pancreatitis induced by duct obstruction in rats**
 by A. Uruñuela, M. A. Manso, R. M^a Pinto, A. Orfao and I. de Dios 143–150
First published on the Internet 4 January 2000

- Calcium oxalate crystallization kinetics studied by oxalate-induced turbidity in fresh human urine and artificial urine**
 by J. P. Kavanagh, L. Jones and P. N. Rao 151–158
First published on the Internet 6 January 2000
- Cerebral oxygenation at high altitude and the response to carbon dioxide, hyperventilation and oxygen**
 by C. H. E. Imray, S. Brearey, T. Clarke, D. Hale, J. Morgan, S. Walsh, A. D. Wright and the Birmingham Medical Research Expeditionary Society 159–164
First published on the Internet 11 January 2000
- Hepatic sugar phosphate levels reflect gluconeogenesis in lung cancer: simultaneous turnover measurements and ³¹P magnetic resonance spectroscopy *in vivo***
 by S. Leij-Halfwerk, P. C. Dagnelie, J. W. O. van den Berg, J. H. P. Wilson and P. E. Sijens 167–174
First published on the Internet 19 January 2000
- Abnormal magnesium status in patients with cardiovascular diseases**
 by S. Sasaki, T. Oshima, H. Matsuura, R. Ozono, Y. Higashi, N. Sasaki, T. Matsumoto, Y. Nakano, A. Ueda, A. Yoshimizu, S. Kurisu, M. Kambe and G. Kajiyama 175–181
First published on the Internet 11 January 2000
- Chylomicron-remnant-induced foam cell formation and cytotoxicity: a possible mechanism of cell death in atherosclerosis**
 by K. C.-W. Yu and J. C. L. Mamo 183–192
First published on the Internet 11 January 2000
- Noradrenaline and *N*^ω-monomethyl-L-arginine (L-NMMA): effects on haemodynamics and regional blood flow in healthy and septic sheep**
 by M. Booke, F. Hinder, R. McGuire, L. D. Traber and D. L. Traber 193–200
First published on the Internet 11 January 2000
- Reproducible assessment of vaginal and rectal mucosal and skin blood flow: laser doppler fluximetry of the pelvic microcirculation**
 by A. V. Emmanuel, M. A. Kamm and R. W. Beard 11 January 2000 201–207

CORRESPONDENCE

- Forearm plethysmography: does the right arm know what the left is doing?**
 by J. R. Petrie, C. Perry, S. J. Cleland, L. S. Murray, H. L. Elliott and J. M. C. Connell 209–210
First published on the Internet 19 January 2000

SUPPLEMENT 42

- Communications for the Autumn Meeting of the Medical Research Society on 11 and 12 November 1999 in conjunction with the Science and Medicine Conference at the Royal College of Physicians, London** 1P–18P
